Engaging Learners for Smarter Business

eLearning Plus

Helping you become a Smarter Business

eLearning Plus helps drive people performance with engaging and interactive learning coupled with supporting tools and technologies.
We provide both bespoke and pre-built courses.

We help you achieve your business objectives by becoming a Smarter Business. Whether that is helping you create engaging learning content, converting existing legacy and Flash material or helping you define your eLearning strategy.

We understand the challenges when it comes to learning.

If you want motivated learners, the content has to be relevant, engaging, interactive and well delivered.

In short, they need a positive learning experience and this is our top priority.

We deliver engaging learning content

We focus on helping you become a Smarter Business by combining the latest research and thinking into how people learn best, with creativity & technology innovation.

We do this by harnessing our digital skills and instructional design experience to deliver bespoke engaging learning content and systems across a wide range of industries, both nationally and internationally.

Flexible and practical eLearning

Using a wide portfolio of eLearning development toolsets and technologies, we can deliver simple to more sophisticated eLearning solutions as well as producing video, classroom material, mobile tools, printed guides and job aids.

Our Skill Set

- Design – Illustration – Infographics
- Web & Portal Development
- WordPress
- HTML5 – CSS – Javascript – Angular JS
- PHP – SQL – Web SQL
- LMS – LRS
- Video – Audio – Animation – Green Screen
- SCORM API – TinCan API (xAPI)

Authoring Tools

- Articulate Storyline
- Articulate Presenter
- Adobe Captivate
- Adobe Presenter
- iSpring
- ADAPT Framework

Integrated learning

We can help you develop blended solutions which mix face-to-face sessions, self-learning (printed materials) and eLearning, followed by hands on questions or practice.

The "flipped classroom" is another great way to deliver learning across your organisation. Learners can develop their knowledge and test this knowledge using eLearning materials prior to any face to face activities.

And when it comes to managing learners, courses and quiz assessments, we can help you with our own LMS eLearning Portal – **SmartLMS** – or provide SCORM and TinCan compliant courses for use with other compatible LMS systems.
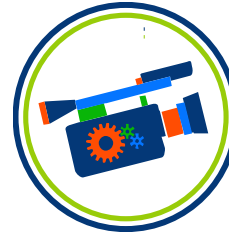

We can handle all your learning needs:

eLearning Content Creation

Interactive Video

Animated Video

Scenario Based Learning

Simulation for Software, Machinery & Equipment

eLearning Portal Hosting – LMS
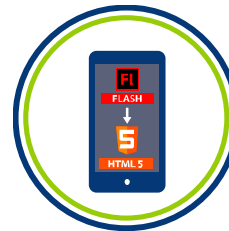

Classroom and Workshop Materials

Support Materials such as Job Aids, Posters

eLearning Strategy Development and Skills Support

MLS – a Fully Managed Learning Service

Legacy eLearning Course Conversion

Interactive Content

So why partner with eLearning Plus?

- **+** We want to be a partner rather than a supplier

- **+** We are ready to challenge, advise and give an honest, unbiased view of what is best for your business

- **+** We have in-house video production, animation and audio services

- **+** We continually invest in R&D so that we can advise you on developments in the elearning world

- **+** We understand the challenging world of cross platform delivery – there are many factors to consider!

Whether you just need extra capacity, specialised production such as video or animation for your existing eLearning delivery or are completely new to eLearning, we will provide the appropriate level of support to help you develop and deliver your eLearning content.
